FLOORING DIVISION

Louisville 21, Ky.

Dear Friend:

Thank you for your interest in Wood-Mosaic Flooring. We are pleased to enclose literature illustrating and describing our many patterns of pre-finished and unfinished flooring. We can supply your flooring needs in Laminated Block, pre-finished Parquet and fine custom patterns. We will even design and manufacture a special pattern for you.

Wood-Mosaic Corporation has been manufacturing hardwood floors since 1883. Our beautiful floors have been installed in some of the finest homes and public buildings including The White House, Harvard and Yale Universities, and The National Gallery of Art, Washington D. C. We are recognized as the worlds largest producer of American Walnut.

Look for us in the yellow pages of your phone book, as Wood-Mosaic has distributors and dealers in most major cities in the United States. If you are unable to find a Wood-Mosaic dealer in your area please contact us at our main office, P. O. Box 21066, Louisville, Kentucky, and we will be most happy to answer any question or assist you in any way possible.

Please be assured that we are appreciative of your interest in Wood-Mosaic. If additional information is desired concerning any of our products, please do not hesitate to contact this office. Samples are available at your request. We will look forward to the time when we have a chance to work with you.

Yours very truly,

WOOD-MOSAIC CORPORATION

Wood-Mosaic

FINEST HARDWOOD FLOORING FOR 3 GENERATIONS

Since 1883

CUSTOM

For many years, Wood-Mosaic Custom Flooring has been specified by the nation's most eminent architects and interior designers for such installations as the Art Institute of Chicago—Edison Museum, Dearborn—the French Embassy, Washington—National Gallery of Art, Washington—many outstanding private residences, universities, clubs, hotels, stores. For further details, see page 4.

(Below: Monticello Pattern. See top of page 3.)

PRE-FINISHED

For thirty years, Wood-Mosaic has pioneered in distinctive pre-finished hardwood flooring which can be installed and used on the same day—mosaic-type flooring in patterns which rival the beauty of Wood-Mosaic Custom Flooring, at **very moderate costs**. The next two pages give the highlights of these unique products. Please write for names of nearby distributors who can show you actual samples of the **complete** line.

(Below: Haddon Hall Pattern. See top of next page.)

Haddon Hall Pattern

(See pre-finished photograph
on previous page)

Du Barry Pattern

This exquisite pre-finished flooring is a variation of Wood-Mosaic's famed Marie Antoinette pattern (which is available only in 13/16" custom flooring. It is almost indistinguishable from the ancient pattern found in many French chateaux and palaces. The illustration shows Du Barry in Cherry, but many interesting combinations of two different woods are often used from the species mentioned below.

DATA FOR SPECIFICATIONS

Blocks are $\frac{3}{8}$ " x 9" x 9" of 3 ply laminated construction divided by 2" x 20" interlocking bands. Tongued and grooved. Pre-finished with Wood-Mosaic's vinyl-alkyd finish. Blocks are installed with adhesive.

Available in matching or contrasting combinations of Natural or Dark Oak, Walnut or Cherry.

WOOD-MOSAIC PRE-FINISHED FLOORS.

Clustered Square Pattern

Wood-Mosaic's Clustered Square Pattern is a floor of restrained and classic beauty. This inexpensive, practical design is often used in directors' rooms, luxurious showrooms and fine offices as well as in homes. Like all other Wood-Mosaic pre-finished patterns, the Clustered Square design can readily be used over existing floors as well as in new construction. The illustration shows it in pre-finished Gothic Oak.

DATA FOR SPECIFICATIONS (Also applicable to Haddon Hall pattern)

Blocks are $\frac{5}{16}$ " x 12" x 12" of solid hardwood pre-fabricated into parquetry squares. Slightly beveled edges, not tongued and grooved. Pre-finished with Wood-Mosaic's vinyl-alkyd finish or unfinished.

Available in quarter sawn White Oak—Natural or Dark-finish—Genuine Teak, American Walnut, Gothic Oak or Cherry. Can be installed over any smooth, above-grade sub-floor with adhesive.

The Wood-Mosaic Haddon Hall pattern is an authentic reproduction of the classic basket-weave design in England's famed Haddon Hall. Blocks are 5/16" x 12" x 12", of solid hardwood prefabricated into parquetry squares. Available in quarter-sawn White Oak—Natural or Dark—Teak, Walnut, Gothic Oak or Cherry.

Thomas Jefferson Pattern

This striking new luxury floor is patterned after Wood-Mosaic's famous "Monticello" flooring as designed by Thomas Jefferson, and used in his famous home in Virginia. The illustration shows it with Walnut centers and Walnut pickets. Many other wood combinations are of course possible. In every case, the pieces are laminated, which makes them ideal for laying on concrete, on grade.

DATA FOR SPECIFICATIONS

Units are 3/8" x 9" x 9" centers with 3/8" x 4" x 13" double mitered pickets. Tongued and grooved laminated construction. Pre-finished with Wood-Mosaic's vinyl-alkyd finish or unfinished. Installed with adhesive over concrete or wood sub-floors.

Available in matching or contrasting combinations of Natural or Dark Oak, Walnut or Cherry.

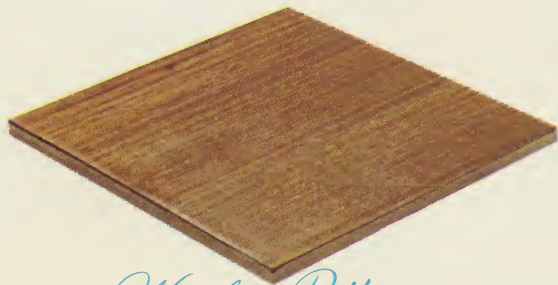

different and distinctive, moderate in cost

Laminated Block

OAK, WALNUT or CHERRY

Wood-Mosaic Laminated 9" x 9" Block are the finest products of their type available. They are built like high-quality architectural plywood—3/8" thick to achieve truly **BALANCED CONSTRUCTION**, in which the combined thickness of the face and back is the same as the thickness of the Poplar core. Tongued and grooved. Available in Oak (Natural or Dark), Walnut or Cherry. **FHA MATERIALS RELEASE #396.**

Windsor Pattern

8" x 8" Walnut squares, 5/16" thick, each composed of four solid-Walnut slats, held together with latex. Also available in Quartered White Oak, Cherry, Teak and Gothic Oak.

Wood-Mosaic pre-finished hardwood floors are made in two constructions—laminated and solid. The solid types share all the advantages listed below, except No. 1 and 2, of course.

- 1 **BALANCED CONSTRUCTION** — as used in finest architectural plywood. More stable and dependable. The combined thickness of the face and back equals the thickness of the Poplar core.
- 2 **3-PLY LAMINATION** — with water-resistant glue, under heat and pressure, prevents buckling, warping.
- 3 **APPALACHIAN OAK FACES** — smoother cut—finer finish—more uniform in color. Or luxurious *Walnut* or *Cherry* faces. Some patterns also available in Teak and Gothic Oak.
- 4 **BETTER FINISH** — pre-finished with Wood-Mosaic's Vinyl-Alkyd finish, which gives 3 or 4 times longer wear than ordinary finishes.
- 5 **EASIEST INSTALLATION** — laid in mastic—ready to use as soon as laid.
- 6 **GREAT ECONOMY** — greater efficiency in manufacturing, plus easy installation, make Wood-Mosaic pre-finished block flooring truly economical.

Custom WOOD-FLOORING by

The two small reproductions below are taken from among the *many* full-size, full-color photographs shown in an exquisite new Wood-Mosaic Custom Flooring brochure.

Among the many patterns illustrated (with Specifications Data) are *Monticello*, designed by Thomas Jefferson for his famed home—*Fontainebleau*, used in the Palace of Fontainebleau—*Marie Antoinette* as in the Throne Room of

the Palace of Luxembourg—*Herringbone*, as used in the famous Edison Museum—*Special Designs* as seen in the Mayo Clinic Board of Governors' Room, and so on.

A copy of the Wood-Mosaic Custom Flooring brochure will be gladly mailed to any architect or interior designer who requests it on his professional stationery. It will prove helpful, stimulating and inspiring to you.
